BEST GAME EVER 5000+ PEOPLE ON MULTIPLAYER EVERYDAY (MOST ARE CHINESE). No menu, no direction. Just a point and click version of Chinese chess with funny animations. It is definitely not worth \$10 though. Edit: the menus are triggered by holding down the right mouse button. Ten levels of difficulties to choose from. But still. Edit: To me the game is fun, but the pricing is just too much.. No menu, no direction. Just a point and click version of Chinese chess with funny animations. It is definitely not worth \$10 though.
